

DAVID CARR

LOCKSMITHS & ALARMS

Welcome to your D8 Navigator alarm.

Below are some quick tips on how to use your alarm (User manual attached):

To Arm: Press "Arm" and then "E" (it will then say "Armed" at the top left of the screen)

To Disarm: Enter "your code" and then "E" (it will then say "Disarmed" at the top left of the screen)

Emergency: Press "Emergency" and then press "Panic"

To change user codes please refer to the manual attached.

Smartphone Connection

To view your alarm from your iPhone, Joe will be in contact to set up the App on your phone. Type in "Ness iComms" to download the App.

Please note: if we have not originally set up your alarm to work on your smartphone, you will need the following.

Requirements to enable smartphone use for the systems above.

- public IP address (must be a Static IP)
- Router user name, password, brand of router
- Local IP range

We can arrange an IT company to set this up for you if you do not understand the above requirements. We will also need to return to your site to enable this function.

Back to Base Monitoring

If we have set up Back to Base Monitoring for your alarm, please speak to the monitoring centre, please call Onwatch on 1300 658 118 (24/7).

If you're having problems with your alarm, please call us on 02 9389 8543.

I hope you enjoy your new D8 navigator alarm.
